

# GIMS

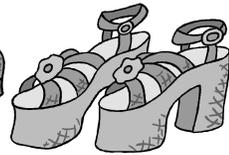

## *The Grid System for Sage 300 ERP*

GIMS is a powerful tool that facilitates the inventory tracking and daily order, invoice and purchase orders processing operations common to the apparel, footwear and similar soft good industries (Hardware, home furnishings, textile, jewelry, furniture, books, foods, luggage and many more...)

### Product

### Overview

- Size and Color matrix (20 x 20 size/color/width/etc grids)
- Style masters with vendor, pricing, costing, color, size, picture details and optional fields
- Generate inventory items from style masters by grids
- Create and update inventory item descriptions by grids
- Delete easily groups of obsolete inventory items at the end of a season
- Create and edit sales orders, purchase orders and purchase receipts by style master grids
- Receive and adjust by style master grids
- Printing forms of orders, quotes, pick slips, invoices, credit notes, purchase orders and receipt slips by grids.
- Inquiries of inventory item tally by primary grid, secondary grid and locations
- Inventory reporting of item tally, valuation, sales, IC worksheet and transaction history by grids
- Open orders, backorders and sales reporting by style, customer and salesperson
- Purchase orders, shippable backorders and purchase history reporting by grids
